

VENTI

New 2021

Stilo helmets are known as the worlds safest, lightest and most functional helmets in the world, and have had success at the highest levels for many years.

Continuing this philosophy, Stilo are excited to introduce the VENTI WRC helmet: an evolution in the helmet world and part of the revolutionary Stilo Wireless program.

Available in FIA8860 Zero, FIA8860 and FIA8859 SA2020 Lightweight Carbon.

Available in three shells: Small, Medium and Large from size 54 to 64

WIRELESS SYSTEM

VENTI WRC helmet is designed around a new communication system concept: a professional intercom system completely WIRELESS.

This system is comprised of two WL-Key that can be plugged directly to the side port of the VENTI helmet and a WL control unit that can be installed inside the car.

WL System

WL Key
Wireless

WL System

- Can be plugged directly to the side port of the VENTI helmet
- Very low profile to be perfectly integrated with the geometry of the helmet
- Power and volume controls

- Keyboard with all the features of our DG10 intercom
- No cables to the helmets

Adjustable peak

Adjustable noise cancelling microphone

PURO TECH

The PURO technology, developed in the Stilo unit for carbon materials, permits the external coating to be eliminated. THIS DELIVERS A FURTHER REDUCTION IN WEIGHT and actually converts it into a DRIVE-CAR PERFORMANCE IMPROVING ELEMENT. Each piece is produced with maximum care by specialized operators and becomes a unique piece. Conception, development and realization of the helmets are 100% made in Italy.

No clear coat

Noise reduction earmuffs

Optional short visor
